## FleXNet^{TM} Mass Notification System (BBX-FXMNS) Enclosure

The BBX-FXMNS enclosure includes a backbox and a two part door and display deadfront chassis. This enclosure can accommodate all the FleXNet^{TM} Fire Alarm and audio models, QMP-5101NV vertical mounting master paging microphone and the QMT-5302NV Master Telephone panels. Refer to Figure 1 for the enclosure dimensions.
